- After this Response: Claims 1-20.

Canceled or Withdrawn claims: None.

Amended claims: Claim 1.

New claims: None.

1. **(CURRENTLY AMENDED)** A system, comprising:
a digital radio broadcast station having a transmitter and a server; and
a receiver in communication with the digital radio broadcast transmitter, the
receiver comprising a user interface for receiving user input commands
comprising a request for information from the digital radio broadcast station,
wherein the receiver is configured to establish a two-way communication path
between the receiver and the digital radio broadcast transmitter; and
~~a network in communication with the server and the receiver for~~
~~exchanging information therebetween;~~
wherein the request for information is provided to the server via [[the]] a
network and the server is configured to receive the request and transmit a response
message to the receiver in accordance with the request.

2. **(ORIGINAL)** The system according to claim 1, further comprising a
computer in communication with the receiver, the computer configured to receive
and display the response message.

1 3. **(ORIGINAL)** The system according to claim 1, further comprising a
2 telephone in communication with the receiver, the telephone configured to receive
3 and display the response message.

4
5 4. **(ORIGINAL)** The system of claim 1, wherein the response message is
6 provided to an e-mail address.

7
8 5. **(ORIGINAL)** The system of claim 1, further comprising a database
9 in communication with the server containing information related to a digital radio
10 program.

11
12 6. **(ORIGINAL)** The system of claim 1, wherein the request for
13 information comprises a request for specific information relating music currently
14 being broadcasted by the digital radio broadcast station.

15
16 7. **(ORIGINAL)** The system of claim 6, wherein the specific
17 information further comprises information identifying a radio channel of interest.

18
19 8. **(ORIGINAL)** The system of claim 6, wherein the response message
20 comprises specific information relating to music currently being broadcasted by the
21 digital radio broadcast station.

22
23 9. **(ORIGINAL)** The system of claim 1, wherein the request for
24 information comprises a request for specific information relating to music
25 previously broadcasted by the digital radio broadcast station.

1 **10. (ORIGINAL)** The system of claim 9, wherein the specific
2 information further comprises information identifying a radio channel of interest.

3
4 **11. (ORIGINAL)** The system of claim 9, wherein the response message
5 comprises specific information relating to music previously broadcasted by the
6 digital radio broadcast station.

7
8 **12. (ORIGINAL)** The system of claim 1, further comprising a device in
9 communication with the receiver for receiving the response message.

10
11 **13. (ORIGINAL)** The system of claim 12, wherein the device is any one
12 of a printer, an e-mail register, a pager, a personal digital assistant, and a storage
13 device.

14
15 **14. (ORIGINAL)** The system of claim 12, wherein the device further
16 comprises a program directory containing information relating to previously played
17 programs.

18
19 **15. (ORIGINAL)** The system of claim 14, wherein the device is any one
20 of a receiver, computer, and telephone.

21
22 **16. (ORIGINAL)** The system of claim 1, further comprising an online
23 purchase device for processing a purchase transaction between a user of digital radio
24 broadcast services and the digital radio broadcast station and a third party vendor,
25

1 wherein the user may purchase program materials currently being broadcasted over
2 the digital radio broadcast station.

3
4 **17. (ORIGINAL)** The system of claim 1, further comprising a recorder in
5 communication with the receiver for recording audio programs broadcast by the
6 digital radio broadcast station.

7
8 **18. (ORIGINAL)** The system of claim 1, further comprising a program
9 guide related to specific audio channels at specific times.

10
11 **19. (ORIGINAL)** The system of claim 18, wherein the program guide is
12 deliverable to a device in communication with the receiver.

13
14 **20. (ORIGINAL)** The system of claim 19, wherein the device is any one
15 of an e-mail register, a pager, a personal digital assistant, a telephone, and a
16 computer.
